## SUPERGIARA JERSEY

SIZES: **XXS-5XL****ERGONOMIC FIT**

### CONCEPT

We took everything we've learned working with pro athletes to create the ultimate gravel jersey. Our ergonomic pattern and light compression fabrics ensure a close fit and no wasted watts. Soft and moisture wicking materials on the body combine with ultralight mesh laser cut sleeves to eliminate seaming and deliver all day comfort. Finally, all the classic Supergiar features like reflective panels and multiple pocket options and you're ready to attack Dirty Kanza or gravel epics closer to home.

### FEATURES

- Highly breathable and moisture wicking fabrics with ultralight laser cut mesh sleeves
- Large rear center pocket for bulky items like a jacket or pump
- Zipper security pocket
- Reflective bands on shoulders and back

# SUPERGIARA BIBSHORT

SIZES: **XXS-5XL**

**ERGONOMIC FIT**

**DMS PAD**

## CONCEPT

For your biggest days when nothing can be left to chance, choose our Supergiarà bibshort. The ergonomic fit features highly compressive stretch woven fabric to support your hardest efforts. Our DMS seatpad combines multi densities with a slightly smaller shape to match the body position and movement for assured comfort on the roughest roads. Mesh cargo pockets on the leg and back hold all your essentials, and reflective details keep you visible when the start is at dawn or the finish is after dusk.

## FEATURES

- Highly compressive and abrasion-resistant stretch woven fabric
- 1 mesh cargo pocket on left leg and 2 mesh pockets on back
- Reflective bands at lower leg
- Anatomic mesh lie-flat bib straps for comfort and ventilation

# BODYFIT PRO

*SIGNED BY OUR  
PRO RIDERS.*

“This is a solemn promise. We will always let you wear the same products as our pro riders.

This is the first and only commandment of BodyFit Pro 2.0, and it is also the reason behind any new product developed at Sportful.

From our very first day, our goal was to provide the best clothing to the best athletes. BodyFit Pro 2.0 is the collection of our latest products designed for our top-level pros.

They were developed and tested for the rigors of the world’s toughest pro races. They were designed with the same ergonomics and all the essential features as the pros’ racing kit. And they are produced for you, because quality doesn’t depend on a race number – quality looks for the right attitude.

These are items tested in the wind tunnel and approved by the best riders in the world. But now we need your feedback, because in terms of research and development, nothing is better than thousands of riders out there on the roads.

And no one is better than an athlete aiming for the best.”

## BOMBER JERSEY BODYFIT PRO

SIZES: **XXS-3XL****ERGONOMIC FIT**

### CONCEPT

The excellent results achieved in the wind tunnel have led us to further improve our race line with an even lighter-weight and more fine-tuned product. The Bomber Jersey is the sister of our Bomber Suit and is equipped with an easy-sliding Camlock® zipper to facilitate opening with one hand. It is a jersey designed based on the body's specific needs on the bike.

### FEATURES

- Sleeves in lightweight mesh fabric
- Jersey with minimalist details, without collar and with raw-cut edges
- Smooth, lightweight fabrics designed for high speeds and low drag
- 3 back pockets
- Additional lower pockets to hold race number without need for pins or tape
- Camlock® zip for easy operation with one hand

## EVO SPEEDSKIN SUIT

SIZES: **XXS-3XL****ERGONOMIC FIT****BODYFIT PRO PAD**

### CONCEPT

The BodyFit Pro EVO Speedskin Suit was developed together with riders from the strongest pro teams in the world, with just one word in mind: speed. During a Grand Tour, every second matters. Since the body of the rider is the part most exposed to the wind, getting the best possible apparel is crucial. Thanks to the high-tech and aero fabrics, and attention to every detail, like the number holder, our wind-tunnel-tested suit will amaze you.

### FEATURES

- Ergonomic fit
- Front zipper for better aerodynamics
- AeroMesh fabrics on arms and shoulders for perfect fit and maximum aerodynamics
- Number-holder back pocket
- TC Pro seat pad with up to 13mm padding

## EVO JERSEY

SIZES: **XXS-3XL**

**ERGONOMIC FIT**

### CONCEPT

Our pro riders' jersey of choice for a wide range of conditions, from racing in warm temperatures to fast training — here, with a fresh, updated design. Light but still with full coverage. Details enhance the fit and give a clean, sleek style. The fit and feel are comfortable whatever the riding conditions. Developed and tested by our WorldTour riders.

### FEATURES

- Multiple-fabric construction
- Minimal stitching on collar for comfort and clean look
- Full-length YKK® Vislon® front zip
- Waist elastic with silicone for grip and laser cut
- Highly stretchy fabrics on shoulders for perfect fit
- 3 rear pockets

## X JERSEY

SIZES: **XXS-5XL**

**REGULAR FIT**

### CONCEPT

The X was designed with a fit that's suitable for any type of ride. This jersey works well on the road, and it's exceptional for mountain biking. The fabrics were treated to protect against scratches and tears.

### FEATURES

- Multi-fabric construction
- Inserts in special fabric to prevent scratches and tears
- 3 rear pockets
- Additional pocket with zipper

## CLASSICS JERSEY

SIZES: **XXS-5XL**

**REGULAR** FIT

### CONCEPT

Working with some of the best classic racers in the world has inspired us to create a technical jersey specifically for cooler temperatures. Jerseys keep getting lighter, and the perfect jersey for a scorching-hot Tour de France stage may not be what you want for cooler weather. Partial-stretch fabrics with a brushed inner surface offer light insulation without compromising breathability. Excellent for racing but also for early morning rides when the sun is not yet too high, or for all those areas that aren't too sunny and where even the summer weather is never very hot.

### FEATURES

- Lightly brushed fabrics for those slightly cooler days
- Full-length YKK® Vislon® front zip with flap for light wind protection
- Waist elastic with silicone for grip
- High-stretch lighter fabric on sides and shoulders for perfect fit
- Lie-flat elastic on sleeve cuff with silicone grip and laser-cut finishing
- 3 rear pockets
- Subtle reflective accents"

## THERMAL JERSEY LS

SIZES: **XXS-5XL**

**SLIM** FIT

### CONCEPT

One of the best-fitting thermal jerseys, thanks to the two-way stretch ThermoDrytex Plus fabric on the sleeves and shoulders. The structure of this fabric helps keep you warm even in cold temperatures, as it offers greater protection than other fabrics. The soft fabric on the body of the jersey provides comfort and total breathability.

### FEATURES

- Fit and structure developed with pro teams
- TDTxp on body for warmth and breathability
- ThermoDrytex Plus on shoulders and sleeves for stretch and aerodynamics
- Silicone gripper at waist
- 3 back pockets
- YKK® Vislon® zip

## COMFORT PRO SEATPAD

An update on our soft and elastic seat pad with surprising comfort. New shape moves well with the body and new microfiber fabric has soft smooth finish and antibacterial surface treatment. Infinitely variable thickness for maximum comfort.

## TC PRO SEATPAD

Using all our innovation from the Total Comfort seat pad, this pad is total comfort made for pros or for cyclists who prefer not to have as much padding. This pad is particularly suitable for trained cyclists' long rides—for everything from multiday cycling tours to pro racing.

## KID PRO EVO SEATPAD

A junior version of Comfort Pro Insert. 2 sizes that match with growing bodies. Unisex construction moves well with the body and microfiber fabric has soft smooth finish and antibacterial surface treatment. Open cell foam with variable thickness for maximum comfort. Lower density appropriate for the light bodyweight of junior riders.

## BODYFIT PRO SEATPAD

Developed with professional cyclists to fit your body for long-distance comfort. An update on our incredibly versatile and comfortable pad. We have further improved comfort and moisture management by perforating the top layer of foam. The infinitely variable padding thickness places just the right amount of padding exactly where you need it. The anatomic shape and seamless construction work together to eliminate chafing and rubbing. Our most comfortable long-distance pad.

## TC PRO W SEATPAD
